

Introducing the Harmony Duo,
a compact and modern Day Bed.

A Complementary Design To Fit Any Environment

The Harmony Duo has been developed to combine the facility of a bed within a chair. The beech slated action combined with a functional and easy to use mechanism gives this product the ability to fit into any environment.

Optional Side Table

With its simple yet elegant design, our compact modern end table is ideal for small rooms, apartments and waiting rooms with limited space.

Reflex Foam Cushions

The Harmony Duo is built with Reflex Foam seat/mattress cushions as standard, giving maximum comfort and support in both sitting and sleeping positions.

Chair To Bed Function

Our Harmony Duo comes complete with an extremely easy to use and functional action which operates a simplistic 'rise, click and pull action'.

Operation: Easy Pull Mechanism

The Harmony Duo is operated by using the pull mechanism to release the two bottom sections for the bed, with the headrest tilting to form the third section and provide a full length bed for users to enjoy a good nights sleep!

Uniquely Designed Fold Up Table

Our beautifully stylish side tables are made using premium quality wood, which come with a melamine finish that is scratch proof and water-resistant. Space-economisation is the main use of our tables and when not in use, the table can be easily folded down which makes it perfect for both domestic and professional use. Note: no special skill or tools are required to operate or fix our side tables.

Soft and curvaceous arm design.

Reflex foam cushioning for ultimate comfort.

Optional collapsible side table.

Simple two step mechanism to transform the chair into a bed.
