

Harmony-Flex

The Harmony-Flex, a modern look combined with versatility and adaptability.

Total Flexible Dimensional Movement for the Perfect Fit

The Harmony-Flex prioritises adaptability and sustainability. Its adjustable design, enabled by quick-release turn wheels, suits various seat heights and depths, ideal for local authority settings.

With a modular design, individual components can be replaced, extending the Harmony-Flex's lifespan and minimising landfill waste. Choose sustainability with the Harmony-Flex.

Height & Depth Adjustment

Designed to enable quick adjustments to seat height and seat depth for optimum adaptability to the users needs.

Multiple Back Options

The Harmony-Flex comes complete with multiple back options, allowing the user to achieve maximum support and comfort to their individual requirements.

Tilt in Space System

The Tilt in Space movement allows the chair to be gently reclined to a range of positions while maintaining a constant back angle.

Tailored Pressure Care, Fitted With Ease

The Harmony-Flex cushion inserts intelligently constructed design accommodates the diverse needs of the user, particularly those at higher risk of pressure related issues.

Our innovative design seamlessly integrates adaptable air/gel solutions with versatile back options, resulting in an elevated posture and an improved overall seating experience.

Available Back Options

2-Tier Drop Back

A classic fibre filled back cushion provides a soft feel and maximum comfort. The 2-Tier Drop Back comes fully adjustable with zip access at the rear to offer bespoke support around the back area.

Vertical 2-Tier Drop Back

A fibre filled back designed for a comfortable feel and to aid in the reduction of pressure around the mid-back and spinal areas. Beneficial to users with more complex postural needs such as Scoliosis and Kyphosis.

3-Tier Drop Back

Each individually fibre filled cushion has zipped rear access for adjustment, providing maximum comfort & bespoke support. Beneficial to users with more complex postural needs like Scoliosis and Kyphosis.

Foam Lateral Back

A firm foam filled Lateral Back with a soft fibre filled headrest. This will not only provide comfort, it also will help to maintain a healthy mid-line position from the hips upwards, which is key for good posture.

Harmony-Flex Key Features

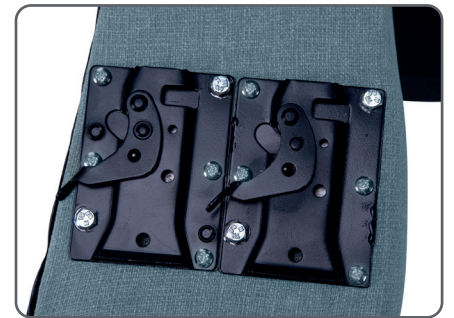

Inbuilt Lateral Support

The Harmony-Flex offers a Lateral back cushion as standard, providing strong postural support to meet the majority of non-critical users.

Moving and Handling

Where there is a requirement for transferring users the Harmony-Flex is designed with two faceted arms to allow easy access with wheeled hoists.

Seat Depth Adjustability

Alternative seat depths are achieved by lengthening the seat box from the underneath 'turn wheels' and also by using our dual back frame brackets.

Footboard Adjustability

The Harmony-Flex offers complete footboard adjustability of up to 2" which is achieved from the underneath 'turn wheels' of the footboard.

Seat Height Adjustability

Alternative seat heights can be achieved on the Harmony-Flex with use of 1" & 2" risers that can be installed quickly and easily.

Button Glides

The Button Glides are a standard feature on our Harmony-Flex. They minimise chair movement which can be beneficial during user transfer.

Size Matrix

Measurements Shown In Inches.

Seat Height	18	19	20	21	
Seat Width	19 or 21				
Seat Depth	17	18	19	20	21
Back Height	28
