HCE Collection

48 Hour Despatch

The Healthcare Express, Despatched in Just 48 Hours.

The HCE 1

The HCE 1 prioritises excellent pressure management solutions and postural support, whilst providing a modern stylish look that complements any environment.

It comes standard with medium-risk pressure care seating, which is encased in black, vapour-permeable fabric and complemented by an outer covering of Highland Steel fabric.

Dual Tilt in Space System

The Dual Tilt in Space mechanism enables the back and footrest of the chair to recline gently and independently, offering a range of positions. This feature is further enhanced by its robust lift capacity of 20 stone.

Back Option

The HCE 1 is available with a 3 Tier-Drop back option allowing any user to find comfort. Zipped rear access allow fibre adjustment which can be beneficial to postural conditions.

The HCE 2

The HCE 2 is crafted to cater to a diverse user base seeking a blend of comfort, pressure management, and posture control in their seating. Height & angle adjustability along with complementary accessories render it an ideal choice for individuals in need of precise and tailored support.

The interchangeable seat module comes as standard with medium-risk pressure care seating and can accommodate high risk gel/air solutions with ease, the seat module is encased in black, vapour-permeable fabric and complemented by an outer covering of Highland Steel fabric.

Individual Locking Castors

Fitted with 100mm Levina castors provide 125mm of clearance from the subframe to floor a requirement for hoisted users to have an as stress free transition as possible. Castors available in both total lock and directional lock to navigate those narrow corridors.

Tilt in Space System

With independent leg elevation and back recline, this system enables change of orientation which redistributes pressure and maintains physical angles at the hips, knees and ankles.

Back Option

The HCE 2 comes with a Lateral back, designed to offer maximum support to the back. It features zipped rear access for fibre adjustment, which can be particularly beneficial for managing postural conditions.

The HCE 3

The HCE 3 is expertly designed to meet the needs of users requiring transportation, while also offering the functionality to assist from sitting to standing positions. Its premium castor design, operational grab bar, and drop-down footrest, secured with a heavy-duty magnet, combine seamlessly to provide an optimal solution for transportation.

The interchangeable seat module comes as standard with medium-risk pressure care seating and can accommodate high risk gel/air solutions with ease, the seat module is encased in black, vapour-permeable fabric and complemented by an outer covering of Highland Steel fabric.

Battery Pack

The integrated battery pack will perform 20 complete cycles and eliminates the need for trailing cables.

Dual Tilt in Space System

The Dual Tilt in Space mechanism enables the back and footrest of the chair to recline gently and independently, offering a range of positions. This feature is further enhanced by its robust lift capacity of 20 stone.

Back Option

The HCE 3 comes with a Lateral back, offering maximum support. It features zipped rear access for fibre adjustment, particularly beneficial for managing postural conditions.
